**COMPLEX
QUERY:** DESCRIBE THE DISSOLUTION OF
NaCl IN H₂O

PART 1: BEFORE

The diagram illustrates a chemical reaction. On the left, a rectangular box labeled "SUE" is shown above a horizontal line. To its left, the label "1240" is connected by a curved arrow. Below the line, the label "1230c" is connected by a curved arrow. To the right of the line, the label "NaCl" is connected by a curved arrow. Above the line, a water molecule (H2O) is shown with two hydrogen atoms (H) attached to an oxygen atom (O). The entire reaction scheme is enclosed in a large rectangular frame.
